PROFESSIONAL SUMMARY

Product Designer with experience designing web and mobile products end to end, from research and wireframing through high-fidelity delivery and developer handoff. Background spans SaaS dashboards, messaging and collaboration tools, marketplaces, and AI-powered products, alongside branding and illustration work. I lead design independently, mentor junior designers, and work directly with engineering and product teams in agile environments. I have integrated AI-assisted tools including Claude, ChatGPT, and Lovable into my workflow to move faster from idea to prototype.

CORE SKILLS

Design: UX/UI Design, Interaction Design, Visual Design, Branding, Illustration, Design Systems, Wireframing & Prototyping.
Research & Strategy: UX Research, Usability Testing, Product Thinking, Accessibility & Responsive Design
Specialised Flows: Payment & Checkout Design, Dashboard & Data Visualisation Design
Collaboration: Agile/Sprint Methodology, Cross-Functional Collaboration, Developer Handoff, Design Critiques, Stakeholder Communication, Mentoring & Coaching
Tools: Figma, FigJam, Adobe Illustrator, HTML & CSS, JavaScript, Miro, Notion, Google Workspace, Slack **AI-Assisted Design:** Claude, Cursor, ChatGPT, Codex, Lovable, Base44, Figmake, Gemini, Notion AI

WORK EXPERIENCE

Lead UI/UX Designer *October 2024- Present*
Stackchase, Lagos, Nigeria (Hybrid)

- Lead end-to-end UI/UX design for Ration, a web and mobile collaboration suite spanning Mail, Contacts, Calendar, Tasks, and Chat designing **200+ screens** across both platforms.
- Serve as **Design Team Lead,** collaborating daily with developers, product managers, QA, marketing, and support to deliver user-centred solutions on schedule.
- Participate in sprint planning, reviews, and retrospectives, helping the team **ship 90% of planned features on time.**
- Owned the full design process from **research and ideation to high-fidelity prototypes and developer handoff,** reducing rework cycles by streamlining handoff documentation.
- Present weekly demos and updates to stakeholders, improving alignment and **reducing follow-up questions by 40%.**
- Established and maintained a shared design system, cutting component creation time for **new features by an estimated 30%.**

Product Design Instructor *September 2024- Present*
GOMYCODE, Lagos, Nigeria (Part-time, Saturdays only)

- Led hands-on product design training for **30+ students**, guiding them through real-world projects and portfolio development.
- Taught UX research, interaction design, wireframing, prototyping, and usability testing, achieving an average **student satisfaction score of 4.6/5.**
- Provide **practical feedback and career mentorship**, helping students build confidence and job-ready design skills.
- Translated complex design principles into clear, industry-relevant learning experiences, improving curriculum engagement by **iterating based on student feedback.**

UI/UX Designer (Freelance) *December 2023 – February 2026*
Remote

- Sole freelance product designer across multiple ventures, owning the complete design process from discovery through developer-ready handoff.

ServaMarket — marketplace web app for buying, selling, renting items, and booking services

- Designed 100+ screens covering the full user journey, including onboarding, product listings, service booking flows, and seller dashboards.
- Designed checkout and payment flows focused on reducing drop-off, mapping edge cases, error states, and confirmation screens.
- Designed a dual-purpose user and admin dashboard giving buyers and sellers visibility into earnings, spending, and transactions, while allowing admins to monitor activity, manage listings, and oversee accounts.
- Delivered complete Figma prototypes, user flows, and component documentation as part of the developer handoff package.

Clan — ride-sharing and community app

- Designed ride-request flows (post a ride, join a ride, seat availability) alongside local interest-group communities, direct messaging, and a wallet/points system, covering onboarding, home, community, and profile screens.

Wakapad — property rental platform

- Designed property search and filtering (location, price, bedrooms, furnishing), listing pages, and booking flows for renters, plus a separate agent dashboard for managing listings and bookings.

Product Designer *June 2024- August 2024*
HNG Tech, Nigeria (Remote)

- Collaborated with a cross-functional team of 8 designers to deliver an AI homework assistant, removing design blockers and **improving feature delivery speed by 20%.**
- Designed TIFI, an AI-powered tool for transcription, summarisation, and visual content creation, using a **user-centred design approach** from research through to final prototype.
- Conducted UX research, ideation, wireframing, and usability testing across **3 iteration cycles** to improve clarity and task completion rates.
- Designed **admin dashboards** for internal team management, including user analytics, content moderation, and activity monitoring screens.

UI/UX Design Intern *January 2023- April 2024*
Brain Quest, UAE/India (Remote)

- Designed **3+ responsive websites using Wix Studio**, ensuring consistent, accessible experiences across desktop and mobile breakpoints.
- Collaborated with international stakeholders on iterative, feedback-driven design revisions, completing all projects on schedule in a fast-paced remote environment.
- Delivered all projects on schedule in a fast-paced, remote environment.

EDUCATION

Delta State University
Bsc.Ed Geography and Education

CERTIFICATIONS

- **Dev and Design**, product design certification 2023
- **Ingressive for good + Zuri training** , product design certification 2022
- **Perxels Design School**, UI/UX design certification 2022
